

3" & 4" STEEL ANCHORS

ARROWHEAD ANCHORS

Up To 3,500 pounds of holding power.

These arrowhead anchors are designed after our highly successful Mil-Spec anchors which have been proven and tested out in the field for over 40 years.

The anchors are made of high quality 11 gauge galvanized steel with a matched galvanized aircraft cable assembly. American Earth Anchor's 3-inch & 4-inch steel anchors combine superior pullout resistance, ease of installation and dependability at a very affordable price.

The distinctive design of the 3 & 4 inch American Earth Anchor provides up to **3,500 pounds** of holding power, more than enough to secure a shed to a tower.

Pullout Resistance In Pounds

Anchor Size In Inches	Hard Pan Soil	Dense Sand & Gravel	Medium Sandy Gravel	Loose Medium To Fine Sand	Loose Fine Uncompacted Sand
3" Steel	2,000	1,800	1,700	600	350
4" Steel	3,500	2,200	1,900	900	475

The cables are gripped by spring-loaded jaws which tighten more securely as the cables are tensioned, Just drill a hole - insert the Quickvise - pull the cable through - it's that easy.
