7. Site Preparation

Horizon Structures LLC recommends the following site preparations:

All run-in sheds should start with a level pad of stone dust or other fine stone. Ideally, the pad should be 3" – 4" deep and 1' larger than the perimeter of the structure. For example: a 10'x20' run-in shed would require a pad at least 12'x22'. Extending the pad will allow for better drainage around the base of the barn. Rain and/or snow melt dripping off the eaves will create a muddy area and splash up onto the barn siding. The stone dust base prevents this and extends the life of the building. We recommend stone dust rather than gravel because it is easier on your horse's feet and will shift less as they move around over it.

- To prepare the pad, remove the sod from an area slightly larger than the anticipated structure. Level the site by removing dirt where necessary, and spread the stone dust to a depth of about three or four inches. Using more "fill" to elevate or angle the pad slightly will improve drainage. To finish, tamp the stone dust down with a piece of 4x4, or metal tamper, until it is evenly distributed, flat and level.
- A "frame" of pressure-treated 4x4's (railroad ties or cement block) will help keep the stone in place and create a neater appearance; however, it is not required.

After the shed is in place many people like to backfill the interior with more stone dust or clay. Installing rubber mats over the fill will prevent damage from horses pawing or digging.

Because all our buildings have a pressure treated base, they may be set directly on the ground. Run-in sheds are more suited than barns to an unprepared base. There are no doors or windows to jam or stick should the building settle unevenly. Additionally, run-in sheds are often relocated within a pasture or to a different pasture. If this is the case, spending a lot of time and money on site prep doesn't make sense. A dry, level spot will suffice.

However, if you plan on keeping your run-in shed in a permanent location, the stone dust base is a good idea. Horses can churn the inside of their shelter into mud in no time. A stone dust "floor" is less vulnerable to standing water and easier to maintain. Just add more gravel as needed.

Finally, although our run-in sheds are heavy and solidly built, consider tie-downs or an anchor kit for your peace of mind and your horse's safety. The standard built-in tow hooks make it a snap to tie down a building. We also sell anchor kits. Install it yourself or have us do it when we set up your building.

8. Delivery

Horizon Structures LLC will handle delivery of the run-in shed to the winner. Deliveries are normally made Monday through Friday between the hours of 6 am and 6 pm depending on customer location. Mileage is based upon the distance from Horizon Structures LLC's facility, or affiliate facility, to the requested delivery location. Horizon Structures LLC reserves the right to reschedule deliveries due to inclement weather, periods of excessive rain or other events beyond our control. Horizon Structures LLC also asks that the Winner request delivery be rescheduled should the Winner believe inclement weather, soft ground or other conditions exist which would impede the safe delivery of the building or cause damage to the delivery truck or trailer or Winner's property or otherwise make delivery exceptionally difficult for the driver.

Fourteen (14) feet of clearance must be provided to the building site or delivery will be made to the closest acceptable site. Winner understands that the trucks used to deliver buildings are heavy industrial trucks and, therefore, Winner warrants to Horizon Structures LLC that the driveway of

Winner is capable of holding the weight of the trucks and loaded trailer. In the event the driveway is damaged despite this warranty by Winner, Winner waives any cause of action against Horizon Structures LLC or its subcontractors for any damage associated with the trucks and trailers of Horizon Structures LLC or its subcontractors. Winner understands that it may be necessary for Horizon Structures LLC or its subcontractors to drive across or through Winner's lawn, pasture or other ground. Winner also waives any course of action against Horizon Structures LLC or its subcontractors for any damage caused to Winner's lawn, pastures, ground, fences, gates, structures, buildings, animals or other property whatsoever. Winner is responsible for towing charges incurred should the delivery truck or trailer become stuck.

9. Other Terms and Conditions

Potential winner may be required to sign and return an Affidavit of Eligibility, Liability Release, and where lawful, a Publicity Release, within two (2) days of notification, failing which the potential winner will be disqualified and another winner selected in the place of the disqualified person at random from all entries received. If any prize or prize notification is returned as non-deliverable, the potential winner will be disqualified and another potential winner will be selected in the original potential winner's place. By accepting the prize, the winner agrees that the Sponsor and those acting under Horizon Structures LLC's authority, may use winner's name, picture/portrait likeness and/or voice, for advertising and promotional purposes without further consideration, unless prohibited by law. **BY ACCEPTING THE PRIZE, THE WINNER AGREES THAT THE SPONSOR / HORIZON STRUCTURES LLC, ITS SUBSIDIARIES, AFFILIATES, ADVERTISING AND PROMOTION AGENCIES, AND ALL OF THE SPONSOR'S OFFICERS, DIRECTORS, EMPLOYEES, REPRESENTATIVES AND AGENTS, WILL HAVE NO LIABILITY WHATSOEVER FOR, AND WILL BE HELD HARMLESS BY WINNER FOR ANY LIABILITY FOR ANY INJURY, LOSS OR DAMAGES OF ANY KIND TO PERSONS, INCLUDING DEATH, AND PROPERTY, DUE IN WHOLE OR IN PART, DIRECTLY OR INDIRECTLY, FROM THE ACCEPTANCE, POSSESSION, USE OR MISUSE OF THE PRIZE OR PARTICIPATION IN THIS CONTEST OR PARTICIPATION IN ANY SWEEPSTAKES OR PRIZE RELATED ACTIVITY.** Subject to all federal, state and local laws.
